

Conference Overview

*Join us for three impacting days as we focus on the **Joyful** aspects of Recovery!*

Each day is designed to highlight an important dimension of Recovery...

Day 1: Enjoy focused training on the neuroscience of recovery for counselors, recovery ministry staff and people in recovery. Through “Thriving: Recover Your Life” you will experience modules that harness the power of JOY to jump start recovery from trauma, spiritual dryness, abuse or addictions. This solution-based approach builds brain pathways for bonding, increased joy and hope. Support group materials based on this brain science approach will be available. (6 CEUs)

Day 2: We will Strengthen Community through a program designed to enhance your organization, your counseling and ministry skills and promote personal growth in recovery. Along with government and addiction recovery experts, we will celebrate the work and success of Recovery through dance and drama! (6 CEUs)

Check out an evening at a vibrant “Celebrate Recovery” at our host location.

Day 3: The theme is “New Horizons: Beyond the Struggle to Joyful Recovery”. Join Dr. Robert Perkinson and other recovery advocates as we acknowledge the personal achievements of people in recovery. Special TWO hour Workshops will address counseling and organizational needs plus special topics designed to broaden your experience of recovery and help link treatment with Recovery Support Services.

*Special workshop for Family Restoration in Spanish. (3 CEUs)

Scroll down for Daily Schedule Details

Come and join us. We look forward to your arrival!

Focus Training

Thursday, April 24, 2008

6 CEUs available

8:00 am Registration *The Plaza*
Refreshments during breaks in The Plaza

9:00-4:30pm **Edward Khouri, author of *Thriving: Recover Your Life***
Worship Center

Neuroscience and Joyful Recovery!

(Session Details Coming Soon)

When your life is more painful and out-of-control than you like: Find the skills to bring you to peace and joy. Rebuild your life after addictions, abuse and loss. Trauma weakens your brain's control center. Addictions hijack your brain's attachment center. Strategic spiritual and mental training restarts your life.
